Detailed Assessment Results

Individual scores and interpretations across all six domains

Self-Efficacy

Belief in personal ability to succeed

Self-Efficacy Level

MODERATE

their score on the self-efficacy measure indicates a moderate level of self-efficacy. They will therefore be moderately confident in their capacity to achieve their objective and play a partly involved role in their academic life. They will also be aware of themselves and capable of identifying the setbacks They has in life. They should attempt to assess their own potential, visualize their success, and have positive self-talk in order to better themselves.

Learning Style

Preferred information processing method

Style: auditory, kinesthetic, visual

His scores indicate that he is efficient in all three learning styles - visual, auditory, and kinesthetic. They doesn't have any preferential way in which he absorbs, processes, comprehends, and retains information. They has widespread recognition in any classroom management strategy.

College Readiness

Academic preparedness across four key dimensions

Academic Skills

LOW

They has scored low in Academic skills. Low academic skill levels are synonymous with low academic abilities. In order to do better, They can set goals, stick to routines and timetables, reward themselves for finishing challenging tasks, and manage their time effectively.

Executive Function

HIGH

In executive function of college readiness, They has scored high. They has good leadership abilities and can handle life's tasks. They has skills like working memory, planning flexibility, emotional control, and time management.

Motivation & Confidence

HIGH

In motivation and confidence of college readiness, They has scored high. They is highly motivated to pursue life goals and succeed in college. They has a high desire to gain new knowledge and is more confident in the growth of mindset in every opportunity to learn.

Post-Education Readiness

HIGH

In post-education of college readiness, They has scored high. They can perform well following education and is prepared for college with abilities including critical thinking, self-control, communication, teamwork, and study skills.

Temperament

Emotional and behavioral personality traits

Personally Reserved

LOW

They doesn't have a propensity to keep their personal emotions to themselves. They is not reluctant to let friends and acquaintances get to know them too well.

Self-Criticism

LOW

They does not have the tendency to engage in negative self-evaluation and maintains feelings of worth, optimism, and dignity.

Anxiety & Worrying

LOW

They is not anxious, worrying, and stressed. their emotions relating to relationships will not fluctuate very quickly.

Perfectionism

LOW

They is not very responsible and does not hold high standards for themselves. They will not feel confident and lacks the ability to size up and deal with challenging situations.

Irritability

LOW

They doesn't have the tendency to be quick-tempered and does not externalize stress by becoming snappy and irritated by little things.

Social Support

Primary sources of emotional and social support

Primary Support: Friends

MODERATE

They is completely free to be themselves with their friends. When he needs someone to listen to them, their friends are the ones he can actually rely on more than their family and social media.

Aspiration

Goals, ambitions, and future-oriented motivations

Leadership Aspiration

MODERATE

They has moderate leadership aspirations. They has an interest in taking on leadership roles, but perhaps not at the highest or most intense level. They is open to leadership opportunities but may not be actively seeking executive positions.

Achievement Aspiration

LOW

They has low achievement aspirations. They has limited motivation or ambition to set and achieve challenging goals. They may not be actively seeking or striving for higher levels of success or accomplishment.

Educational Aspiration

LOW

They has low educational aspiration, referring to a lack of motivation or desire to pursue a higher level of education. They may not see the value or importance of obtaining additional education beyond a certain level.
